Dr. Kristi Crow | Associate veterinarian

Fountain Square

Special Interests

- Surgery
- Dermatology
- Pain Management
- Client Education

Education

Purdue University, BS in Animal Sciences 2016
Purdue University School of Veterinary Medicine, Doctor of Veterinary Medicine, 2020

Personal

Dr. Kristi Crow joined City Way in 2022 after previously practicing in the Chicagoland area. Her passion for veterinary medicine began early, inspired by visits to the vet with her childhood dog, Bailey. Drawn to the diversity of the veterinary field and the opportunity to work with multiple species, Dr. Crow chose to pursue animal care over human medicine.

In addition to her work in small animal practice, Dr. Crow is a dedicated wildlife conservationist. She travels internationally 2-4 times per year to support fieldwork focused on protecting endangered species, with a special interest in rhino and elephant conservation.

When she's not in the clinic or abroad, Dr. Crow enjoys adventuring with her two doodles, Ren and Romeo, exploring new destinations, or unwinding with a good reality TV binge. She's passionate about animal health, client education, and building lasting relationships with pet owners.
